

An important function of the
Center for Bioethics and Humanities
is to offer on-site educational
services to institutions in our region.

We can organize or enhance your
team's training in clinical ethics –
both for case consultation and to
provide policy and practice guidance.

NAVIGATING COMPLEX DILEMMAS

Clinical Ethics Consultation and Education

A variety of educational formats shaped to your institution's needs.

Informal consultation with leadership on how to start or improve clinical ethics services (1-2 hours).

Case-based consultation on particularly challenging issues.

Educational seminars (half day to 20 hours) involving one or more of the following:

- Core competencies in clinical ethics
- From first call to consult and documentation
- Special issues
- Organizational ethics considerations

Informal consultations and case discussions are free of charge; longer seminars are fee-based.

We welcome your questions, and look forward to serving you.

Learn about these common ethics consultation topics:

Decision-Making Capacity
Informed Consent & Shared Decision-Making
Surrogate Decision Making and Unrepresented Patients
Advance Care Planning and Advance Directives
End-of-Life Decision Making
“Futility” and Potentially Inappropriate Care
Privacy and Confidentiality
Pregnancy and Perinatal Issues
Pediatric and Adolescent Challenges
Difficult Patient/Professional Encounters
Recognition of Context and Negotiation of Differences (includes cultural and religious issues)
Rural Bioethics

Special ethics seminars can help you address:

Undocumented and Unrepresented Patients
Medical Aid in Dying
High-cost Pharmaceuticals
Frequent Utilizers
“Safe Enough Discharge”
Organizational Ethics
Professionalism
Moral Distress for Caregivers
Public Health Emergency Preparedness and Response
