

Anti-Science Antisemitism and Public Health

**A Conversation with Dr. Peter Hotez on
The Dangerous Intersection of Science Denial and Hate**

Misinformation and false beliefs about vaccines have surprising links to racial, religious and ableist prejudices, including antisemitism. Understanding the connections between vaccine conspiracies and bigoted scapegoating allows us to address these problems at their roots.

Don't miss this chance to explore the critical intersection between intolerance and anti-science sentiments with Dr. Peter Hotez, one of the leading voices in vaccine science and public health.

MONDAY, SEPTEMBER 30, 2024
