**HHARC Lunch & Learn series aims to foster new collaborations, inspire innovative research, and highlight the crucial role of humanities in advancing healthcare.**

### SESSION OBJECTIVES:

A detailed exploration of a specific research project in the health humanities. The session aims to walk participants through the entire lifecycle of a project, from its conception to its impact. It is designed to offer practical guidance and inspiration to other researchers, especially those new to interdisciplinary health humanities work. By sharing the story of a specific project, including its successes and difficulties, it provides a more tangible understanding of what such research entails.

Join us in-person for lunch in the Fulginiti Pavilion UPI Conference Room 105 OR via ZOOM.
